

CL Originate for SBA Loan Origination

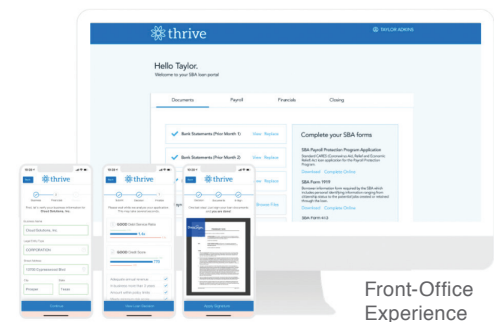

An end-to-end technology solution to help financial institutions get money in the hands of small businesses as quickly as possible

The CARES Act entitles small businesses to FREE capital in the form of forgivable SBA 7(a) loans. This means just about every small business will be looking to apply for an SBA loan. We don't need to tell you how tough it is out there for small businesses right now; for many small businesses, access to capital could mean the difference between laying off employees or staying in business. **Demand will never be higher for SBA loans.**

Is Your Financial Institution Positioned to Capitalize?

With an unprecedented number of small businesses looking to apply for SBA loans – and the tight window of opportunity created by the CARES Act – the right partner and the right technology can mean the difference between success or failure. You need a partner who knows small business lending and experience decisioning and funding small business loans in hours (instead of days or weeks). And during a time when social distancing is fact of life, you need a partner with experience processing small business loans digitally from end-to-end via online and mobile channels.

Front-Office Experience
