

QUICKLY INCREASE REVENUE & ADD NEW CUSTOMERS WITH INTEGRATED PAYMENTS

Today, software companies or ISVs are looking to differentiate themselves by adding new products and solutions to their software that in turn, increase revenue and customer acquisition.

Our suite of easy to integrate products can be added to your product in as little as a few weeks, lowering your cost of development and increasing your revenue quickly.

**Our wide range of
secure, integrated payment
solutions allows ISVs to offer
additional payment solutions
and acquire more customers
while increasing revenue.**

BENEFITS OUR PARTNERS RECEIVE IN WORKING WITH US:

- Increase profitability with new payment solutions
- Suite of developer tools including our Gateway REST API, sandbox, testing tools and more.
- Full technical integration support team available to support development from beginning to end
- Omnichannel solutions including in-store, online, mobile, etc.
- Quick and easy merchant boarding to get merchants up and processing quickly.
- Dedicated ISV support and integration teams
- Peace of mind with advanced security ensuring PCI Compliance
