

Fitech, based in Fort Worth, Texas, is the leading merchant services provider committed to helping community banks be competitive and relevant in today's market. Fitech is more than just a vendor – we are a partner and our company was built on the belief that immeasurable value still exists in personal relationships. We apply this belief to every bank partnership and every individual bank customer we support. At Fitech, we appreciate community banks and recognize each one has different needs. We are a team of passionate people working every day to provide the best solutions possible, customized to meet your specific goals. Our mission is to exceed expectations by providing your customers with an exceptional experience while providing you the tools needed to grow.

Program Highlights:

Fitech provides comprehensive electronic transaction processing services to community banks throughout the U.S. and is endorsed by six banking associations. In addition to credit and debit card processing, Fitech offers a complete line of business solutions including:

- Countertop Terminal
- EMV
- Point-of-Sale Systems
- Mobile Solutions
- ATM Services
- E-commerce
- Virtual Terminal
- ISV and Data Integration
- 24/7 Customer Service
- Designated Account Executive
- Online Reporting

Fitech's service offering is industry-leading and sets the bar for others in our space. We are very proud of the fact that we have never lost a banking partner. Once our customers join the Fitech family, they stay with us. That is a powerful testament not only to the products we provide, but also how we support our bank partners day in and day out.
